BAYES INSTITUTE

COHORT PHOTOGRAPHY / LEARNING IN ACTION

BECOME MORE.

THE BAYES FOUNDER FELLOWSHIP

A lot of capable people are one right environment away from becoming unstoppable.

INSIDE BAYES

TABLE OF CONTENTS

03 THE BELIEF

The founding conviction behind everything we do.

04 THE MISSION

From possibility to capability. Discover. Develop. Direct.

09 THE FELLOWSHIP

40 weeks, 200 live hours, zero equity.

12 HOW YOU LEARN

Build. Observe. Question.

20 THE 40-WEEK JOURNEY

Five stages. One rigorous blueprint.

26 THE EVIDENCE BOARD

What a Fellow graduates with.

28 INVESTMENT & SCHOLARSHIPS

Pricing, grants, and the 10x principle.

30 ADMISSIONS

How to apply. What we look for.

FOUNDING CONVICTION / BAYES INSTITUTE

Humanity’s greatest promise is what people can become.

FROM POSSIBILITY TO CAPABILITY.

Bayes creates the conditions in which human possibility becomes human capability. We do not teach you to think about starting a company. We build the environment in which you actually do it.

DIS-COVER

Uncover the real problem worth building for. Map Indian markets, trace money flows, and formulate a falsifiable venture thesis grounded in ground-truth evidence.

DE-VELOP

Engineer the product, validate with real users, and close paying customers. Build the commercial loop: discovery, system design, distribution, and delivery.

DI-RECT

Stand on evidence. Run the public launch, execute the sales sprint, and graduate with a defensible data room, investor pitch, and operating cadence.

DISCOVER. DEVELOP. DIRECT. / THE THREE ARCS OF THE 40-WEEK JOURNEY.

SEE POSSIBILITY BEFORE PROOF

We look for curiosity, trajectory, and the capacity to grow. Not just polished achievement or institutional pedigree.

01

TURN IDEAS INTO ACTION

Ideas only matter when they survive questioning, building, testing, and real-world use. Theory without execution is decoration.

02

RAISE STANDARDS. BUILD MORE LADDERS.

We keep expectations high and reinforce support, so hard growth can actually happen. No shortcuts. No false kindness.

03

OWN WHAT HAPPENS NEXT

We do not blame conditions, markets, timing, or luck. We choose the next meaningful action and execute it with full accountability.

04

LET TRUTH REVISE US

We treat beliefs as hypotheses and update quickly when evidence changes.

The name Bayes is a tribute to Thomas Bayes, the mathematician who proved that honest revision of belief is not weakness. It is precision.

05

BECOME MORE.

You are not at the ceiling of what you can build, earn, or contribute. You are one right environment away from becoming unstoppable.

BAYES INSTITUTE / THE FOUNDER FELLOWSHIP

Too many capable builders never become founders.

They can build.

They just do not yet have a clear path from product to paying customer.

Bayes exists to close this gap.

A SERIOUS FIRST ATTEMPT.

PHOTOGRAPH 1 / REAL MONEY

PHOTOGRAPH 2 / DECISION MOMENT

PHOTOGRAPH 3 / BUILDING

REAL ENOUGH TO TEACH

Working with real people, real needs, and real money, so every lesson feels alive. Not simulation. Not theory. Actual consequence.

RIGOROUS ENOUGH TO MATTER

Pushing you to think clearly, move quickly, and make decisions you can stand behind. Rigor without deadlines is a hobby.

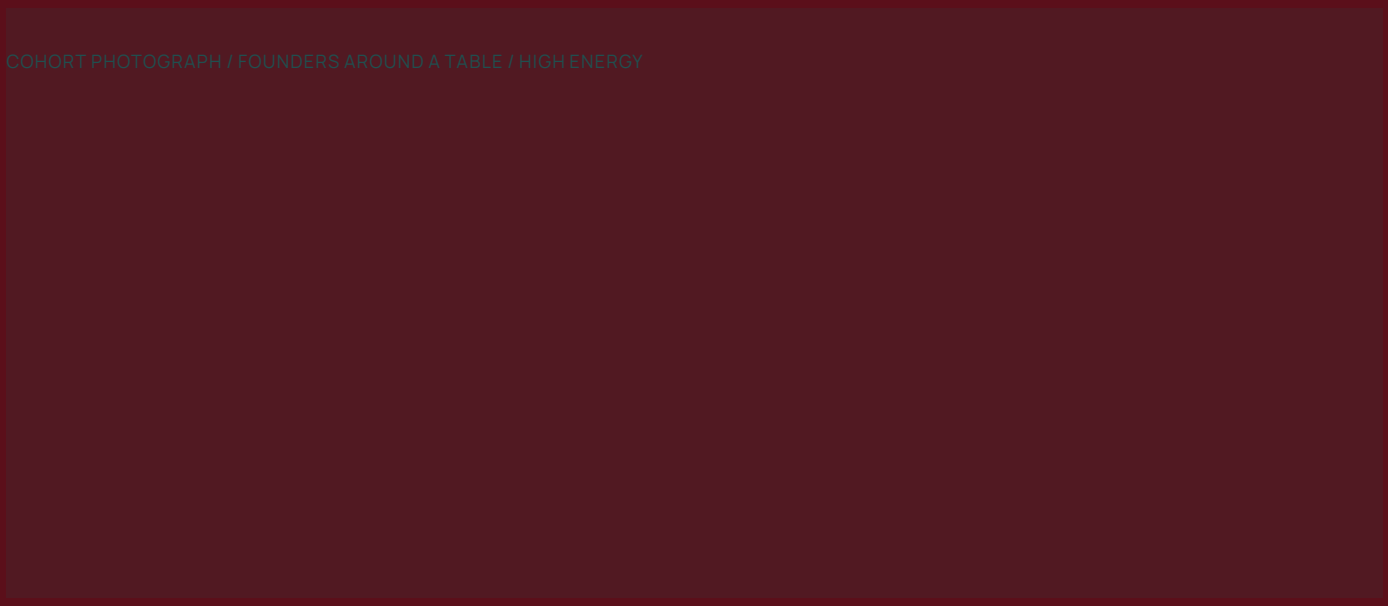

BOUNDED ENOUGH TO SURVIVE

Giving you the space to learn, build, and grow without putting everything at risk too soon. You keep your job. You keep your financial stability.

40	200	5	0%
WEEKS	**GUIDED LIVE HOURS**	**LIVE HOURS PER WEEK**	**EQUITY TAKEN**
Full program duration	Direct founder instruction	Keep your full-time job	Your company. Fully yours.

5	8	1
STAGES	**IMMERSIONS**	**VENTURE MISSION PER WEEK**
Structured program arc	Offline founder events	Real execution. Every single week.

Hybrid part-time model. Founder Tables. Industry Expeditions. Built for builders who cannot quit, but are ready to build.

WHO IS THIS FOR?

PROFILE PHOTOGRAPH 1

PRODUCT & SOFTWARE ENGINEERS

Engineers building products, systems, and software with a strong bias toward shipping. You know how to build. Bayes teaches you how to own.

01

PROFILE PHOTOGRAPH 2

STEM BUILDERS

Students and graduates in science, mathematics, and applied technical fields who want to build real things with their domain knowledge.

02

PROFILE PHOTOGRAPH 3

FINAL-YEAR ENGINEERING STUDENTS

Students in their last year of engineering who are ready to move from classroom learning to serious building before campus placement funnels close in.

03

PROFILE PHOTOGRAPH 4

AMBITIOUS TECHNICAL FOUNDERS

Builders from adjacent or non-traditional backgrounds who are serious about creating technical companies and need

04

The common thread: high execution agency and entrepreneurial paralysis. You can build. You just need the path.

11 / LIFE AT BAYES

LIFE AT BAYES.

BUILD. OBSERVE. QUESTION.

Every week, every immersion, and every conversation at Bayes is designed to collapse the distance between where you are and who you are capable of becoming.

12 / WEEKLY MISSIONS

HIGH-VELOCITY EXECUTION & FEEDBACK

Each week is built around a single Venture Mission, not an academic topic. The work begins before the theory, so the lesson arrives only after the problem is real.

Week 6 is not pricing theory. It is asking someone to pay.

THE WEEKLY FORMAT

WEDNESDAY / MISSION RELEASE

The week's single Venture Mission is briefed. Fellows understand what they must attempt by Thursday night.

THURSDAY–FRIDAY / VERSION 1 + THEORY

Raw unguided attempt first. Then Friday's deconstruction reveals the frameworks and unlocks Version 2.

WEEKEND–MONDAY / VERSION 2 + DIAGNOSTIC

Production-grade upgrade. Monday's clinic evaluates Version 2 with unvarnished peer and mentor review.

The first draft comes first. Then the lecture. Then the revision.

Founders print the rough version before they are ready. After critique and teaching, they rebuild it. The difference between Version 1 and Version 2 is the proof that learning happened. It is not a grade. It is a visible scar of growth.

14 / INDUSTRY EXPEDITION

TRAVEL TO SEE HOW REAL SYSTEMS ACTUALLY WORK.

Every expedition begins with a hypothesis and ends with an Opportunity Map. Fellows study the gap between what they assume and what the world is doing.

EXPEDITION FORMAT

3 days, fully funded. Travel, hotel, meals, and host access included.

Begins with a sector hypothesis. Ends with an Opportunity Map.

Honest stories.
Private conversations.
No performance.

This is where people speak about customer rejection, doubt, co-founder tension, emotional fatigue, and the moments that actually change them. It is not a panel. It is a circle.

NIGHTTIME OUTDOOR CIRCLE
WARM FIRELIGHT / DOCUMENTARY

> “The most honest conversation I have had about building.”

A BONFIRE SESSION PARTICIPANT

FOUNDER AT WHITEBOARD / CROSSED-OUT NOTES
RED ANNOTATIONS / PEERS LEANING IN

SHOW WHAT FAILED.

SHOW WHAT CHANGED.

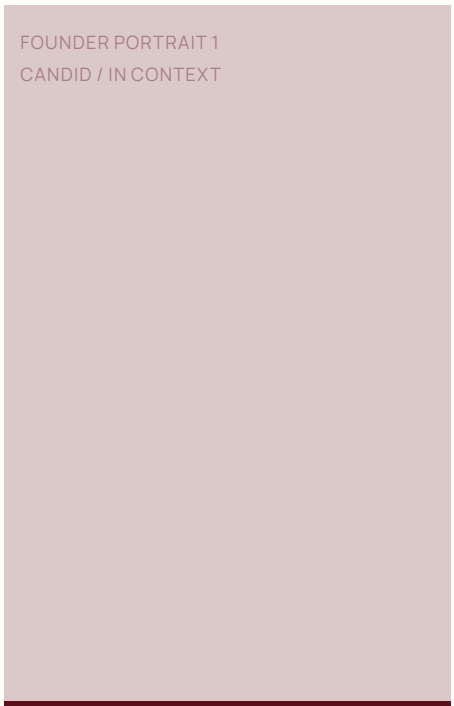

Instead of polished vanity, fellows present invalidated assumptions, unexpected customer behavior, and the work they threw away to move forward.

WHAT GETS PRESENTED

- Invalidated assumptions
- Unexpected customer behavior
- Work that was discarded
- Evidence that changed the thesis
- The honest numbers

REAL FOUNDERS. REAL NUMBERS. REAL DECISIONS

Guest founders and operators break down spreadsheets, unit economics, board arguments, near misses, and what survival actually required. No motivational story arcs. Just the actual decisions.

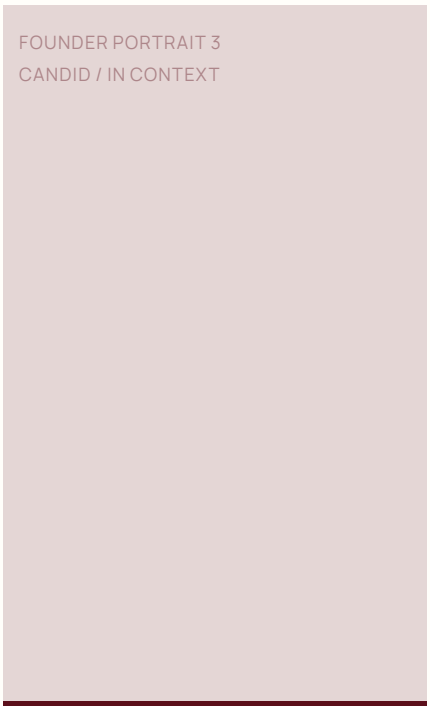

GUEST FOUNDER / OPERATOR

Teardown: Real unit economics, near-death cash crunch, and the decision that changed everything.

GUEST FOUNDER / OPERATOR

Teardown: Board arguments, pricing experiments, and the revenue milestone that felt impossible.

GUEST FOUNDER / OPERATOR

Teardown: The spreadsheet nobody wanted to show, and why showing it changed the room.

Founder Files are closed-door sessions. What is shared inside stays inside. Fellows sign a confidentiality agreement that protects every guest's numbers, decisions, and candid disclosures.

ONE FOUNDER. ONE ROOM OF QUESTIONS.

FOUNDER ON CHAIR
COHORT IN SEMI-CIRCLE
SERIOUS / HIGH-TRUST

One founder presents their current stage of the company. The cohort challenges assumptions, asks for evidence, and forces the decision into the open.

THE FUNCTION

Not a pitch. Not a performance. A live interrogation of one founder's most important current decision by a room of equally invested peers.

The Hot Seat runs 8 times across the 40-week fellowship, stacked within each Founder Table event. Every fellow takes the seat at least once.

THE FELLOWSHIP FINALE.

Founders pitch battle-tested businesses, backed by real evidence of customer pull, product clarity, and execution depth. This is not a practice pitch. These are live companies, in front of real investors.

DEMO DAY / FOUNDER ON STAGE / SCREEN BEHIND / AUDIENCE VISIBLE

WHAT YOU GRADUATE WITH

A battle-tested venture. Real customer evidence. A pitch backed by 40 weeks of auditable Bayesian proof of market fit.

Week 40 / Grand offline finale
Investors, angels, and seed funds
Diligence data room unlocked
Alumni network activated

CURRICULUM ENTERING / FELLOWS GATHERING
LONG TABLE / BEGINNING OF SERIOUS WORK

THE 40-WEEK CURRICULUM BLUEPRINT

This curriculum is designed to build rigorous learning environments that equip people with the knowledge, courage, and agency to shape their lives and make a meaningful contribution to the world. It is not a syllabus. It is an operating system for becoming a founder.

THE FIVE STAGES

01	02	03	04	05
FIND THE PROBLEM	**SHAPE THE PROMISE**	**BUILD UNDER PRESSURE**	**WIN REAL CUSTOMERS**	**STAND ON EVIDENCE**
Weeks 1–6	Weeks 7–10	Weeks 11–16	Weeks 17–26	Weeks 27–40
Thesis + Wedge	Blueprint + UX	Beta Gate	Paid Proof	Demo Day

40 weeks | Part time | 200 live hours | 5 stages | 1 Venture Mission / week | 8 Immersions

FIND THE PROBLEM

WEEKS 1–6 / 6 MISSIONS

Map personal asymmetric leverage, deconstruct Indian demand, trace ecosystem money flows, audit ground-level workflows, isolate your unfair advantage, and formulate a falsifiable venture thesis grounded in ground-truth evidence from real operators.

KEY MILESTONE

FALSIFIABLE VENTURE THESIS AND WEDGE SPECIFICATION

WEEK-BY-WEEK MISSIONS

WK 1	Map Personal Asymmetric Leverage & Founder Math
WK 2	Deconstruct Indian Demand & Sector Adoption Patterns
WK 3	Trace Ecosystem Money Flows & Structural Bottlenecks
WK 4	Audit Ground-Level Workflows & Quantify Operational Waste
WK 5	Isolate Your Unfair Advantage & Target Idea Space
WK 6	Formulate a Falsifiable Venture Thesis & Catalyst

Events: Founder Table 1 (Week 3), Founder Table 2 (Week 6)

Immersion: Ground-truth operator interviews in target sector

SHAPE THE PROMISE

WEEKS 7–10 / 4 MISSIONS

Evolve your thesis into a product specification with a defined ICP, brand positioning, high-fidelity wireframes, onboarding friction audits, UX guerrilla testing, and a 100% build-ready product blueprint locked before engineering begins.

KEY MILESTONE

100% BUILD-READY PRODUCT BLUEPRINT AND WIREFRAMES

WEEK-BY-WEEK MISSIONS

WK 7	Define the 10x Wedge, Brand Name, Domain, and Initial Distribution Spec
WK 8	Eliminate Onboarding Friction & Minimize Time-to-First-Value
WK 9	Validate High-Fidelity UX via Guerrilla Testing with 3 prospective users
WK 10	Draft the MVP Build Contract, Technical Backlog, and Acceptance Criteria

Events: Industry Expedition (Week 9, tentative)

Output: Signed MVP Build Contract. Engineering sprint begins Week 11.

WHAT STAGE 2 PRODUCES

Brand name, domain, ICP definition, 10x wedge feature, guerrilla-tested high-fidelity prototype, and a signed MVP build contract with full user story backlog.

THE DESIGN PRINCIPLE

Build only what you have tested. Every pixel in the prototype has been observed failing in the hands of a real user before the first line of production code is written.

BUILD UNDER PRESSURE

WEEKS 11–16 / 6 MISSIONS

Engineer the front-end, database, authentication engine, and AI workflow. Deploy a live landing page with real demand signals by Week 11. Pass the Private Beta Gate with five paying or committed beta users by Week 16.

KEY MILESTONE

PRIVATE BETA GATE AND FIRST 5 BETA USERS

WEEK-BY-WEEK MISSIONS

WK 11	Deploy Initial Front-End & Capture Early Demand Signal (live landing page)
WK 12	Engineer Core Database, Authentication Engine, and API Endpoints
WK 13	Technical Debt Clearance & Integration Buffer (mid-build buffer week)
WK 14	Execute Recorded Operator Reviews & Capture Product Signal
WK 15	Integrate AI Workflow Leverage & Budget Latency and Token Costs
WK 16	Pass Private Beta Gate: onboard first 5 beta users with payment path

Events: Founder Table 3 (Week 12)

Safeguard: Week 13 buffer absorbs integration debt before operator reviews.

WHAT STAGE 3 PRODUCES

A fully functional MVP with auth, database, and AI integration. A live landing page with real demand signals. Five beta users with a payment or LOI path confirmed.

DESIGN SAFEGUARD

Week 11 deploys the landing page before backend is complete, ensuring demand is tested while the product is built, not after.

WIN REAL CUSTOMERS

WEEKS 17–26 / 10 MISSIONS

Execute dual-track B2B and B2C go-to-market. Run live buyer demos, close paid pilots, build the founder analytics dashboard with real unit economics, and pass the Public Launch Audit with verified commercial proof before Week 27.

KEY MILESTONE

VERIFIED PAID COMMITMENTS AND COMMERCIAL PROOF

SELECTED MISSIONS (WEEKS 17–26)

WK 17	Craft GTM Narrative & Test Pricing (Dual-Track B2B / B2C)
WK 18	Execute Buyer Demos (B2B) or Funnel Activation Tests (B2C)
WK 19	Ask for Commercial Commitment & Close Paid Pilots or Subscriptions
WK 21	Drive White-Glove Onboarding & Achieve First Customer Value
WK 24	Build Founder Analytics Dashboard & Unit Economics (CAC, MRR, Margin)
WK 26	Pass Public Launch Audit & Lock Launch Collateral

Events: Founder Tables 4, 5, 6 (Weeks 17, 21, 25)

Safeguard: Dual-track B2B/B2C GTM ensures no fellow is blocked by business model type.

WHAT STAGE 4 PRODUCES

Verified paid commitments or signed LOIs. A founder analytics dashboard with CAC, gross margin, and retention

THE COMMERCIAL STANDARD

A paid commitment means real money transferred or a signed letter of intent. Verbal interest does not count. Only

STAND ON EVIDENCE

WEEKS 27–40 / 14 MISSIONS

Formal teaching stops. Wednesday and Friday sessions become on-demand office hours, live pipeline triage, and peer rejection teardowns. Founders focus 100% on market execution, customer acquisition, and navigating real-world uncertainty with the evidence they have built.

KEY MILESTONE

PITCH PERFECT AND INVESTOR DEMO DAY GRADUATION

SELECTED MISSIONS (WEEKS 27–40)

WK 27	Execute Public Reveal & Mobilize Inbound Channels (Product Hunt, LinkedIn)
WK 29	Run Outbound Cold Outreach: 100 targeted touches to ICP strangers
WK 33	Execution Buffer & Pipeline Reset (contingency week, no formal sessions)
WK 36	Truth Interrogation: Write a 3-page decision memo (Scale / Narrow / Pivot / Close)
WK 39	Build Diligence Data Room & Finalize 3-Minute Investor Pitch Story
WK 40	Deliver Live Demo Day Pitch. Graduate. Enter Alumni Network.

Events: Founder Tables 7, 8 (Weeks 31, 36). Grand Pitch Perfect / Demo Day (Week 40).

Safeguard: Week 33 contingency buffer absorbs sales delays and tech debt without breaking cohort momentum.

PHASE TRANSITION AT WEEK 27

No new lectures. No new theory. Wednesday and Friday sessions become on-demand 1-on-1 office hours, live pipeline triage, and peer rejection teardowns. The only curriculum is the market.

You don't graduate with coursework. You graduate with evidence.

Every artifact a Fellow possesses at graduation is the result of real work tested against a real market. Not a case study. Not a simulation. Actual proof.

01 / VENTURE THESIS

A validated or falsified hypothesis. The document that proves you understood the market, made a bet, and revised based on evidence.

02 / DEPLOYED PRODUCT

A live URL. Real users. A production-grade product with auth, database, and an AI workflow integrated and measured.

03 / CUSTOMER CONVERSATIONS

A log of real operator and user interviews. Raw transcripts. Documented friction points. Evidence of listening.

04 / COMMERCIAL SIGNALS

Paid commitments, signed LOIs, or verified MRR. The number that proves someone chose to pay for what you built.

05 / ANALYTICS DASHBOARD

Real telemetry: acquisition, activation, retention, revenue, and referral. CAC, payback period, and gross margin calculated from live data.

06 / FINANCIAL MODEL

A 12-month cash-flow forecast with revenue assumptions, burn rate, and self-sustainability or capital-raise path modeled explicitly.

07 / DILIGENCE DATA ROOM

Organized documentation: cap table, operating SOP, product demo recording, metrics summary, and investor brief ready for due diligence.

08 / PITCH STORY

A 3-minute investor pitch backed by 40 weeks of auditable evidence. Not a concept. A company with a real trajectory and a defensible narrative.

These eight artifacts are not assignments. They are the residue of 40 weeks of real work. They exist because a market responded to something you built.

Clear promises. Clear limits.

We believe that trust is built through radical transparency. You should know exactly what Bayes is committed to, and exactly what Bayes will never do, before you apply.

WHAT BAYES DOES

Runs alongside college or work.

The fellowship is 5 live hours per week. You keep your full-time job or finish your degree.

Offers a refund window.

100% refund within 14 calendar days of Cohort Day 1, minus physical fulfillment costs up to ₹2,500.

Funds the Industry Expedition.

Travel, hotel, and meals for the 3-day expedition are fully covered by the institute.

Protects your IP completely.

Bayes claims zero equity, zero advisory shares, and zero intellectual property rights over anything you build during or after the fellowship.

Provides transparent installment pricing.

Six monthly payment slots. No hidden fees. No predatory structures.

WHAT BAYES DOES NOT DO

Does not grant a degree.

Bayes is an entrepreneurial fellowship, not a degree-granting institution. You are not here for a credential.

Does not guarantee placements.

We do not promise employment. We train founders. What you do with what you build is yours to decide.

Does not take equity or IP.

Zero equity. Zero advisory shares. Zero IP claims. Your company is entirely yours from day one.

Does not partner with NBFC lenders.

We explicitly reject predatory student debt financing. If you need aid, apply for a Bayes Scholarship Grant.

Does not admit everyone.

Selection is rigorous. We reject candidates who cannot commit the time, the intent, or the honesty the fellowship demands.

₹2,80,000

GST INCLUSIVE / TOTAL TUITION

₹5,000 seat confirmation deposit credited toward tuition. Six monthly payment slots across the 40-week program.

THE COST

Total tuition: ₹2,80,000 GST inclusive.

Net after 18% GST: ₹2,37,288.

Per live hour of instruction: **₹1,186.**

Industry Expedition: **Fully funded.**

Equity taken: **Zero.**

Degree granted: **None.**

THE RETURN

Rung 1 / Bootstrapped Seed:
₹50k–₹1.5L MRR in 12 months.

Rung 2 / Salary Jump:
+₹5L–₹15L LPA as Founding Engineer or Product Lead.

Rung 3 / Risk Shield:
Preserves ₹18L–₹25L in downside risk capital versus reckless job resignation.

Cumulative 3-year upside:
₹20L–₹30L in net financial delta.

THE 10x PRINCIPLE

Paying ₹2.8L for a defensible ₹25L financial delta means tuition is literally 10% of the value acquired. That is not a discount. That is the arithmetic of leverage.

Talent should not worry about price.

Grants are not arbitrary discounts. They are merit-and-need validated capital subsidies. High-agency builders often face liquidity constraints early in their careers. Bayes does not let that stop them.

GRANT TIERS

TIER A / FOUNDER'S MERIT GRANT

₹80,000–₹1,00,000 off. Net fee: ₹1.80L–₹2.00L.

Candidates with >₹30k MRR, open-source reputation, or exceptional technical systems pedigree.

TIER B / EARLY-DECISION GRANT

₹40,000–₹50,000 off. Net fee: ₹2.30L–₹2.40L.

Round 1 applicants who commit to full 40-week execution prior to pre-engagement kickoff.

TIER C / STANDARD MERIT SUBSIDY

₹20,000–₹30,000 off. Net fee: ₹2.50L–₹2.60L.

Standard accepted candidates demonstrating strong problem-solving capacity and commitment.

TIER D / FULL ANCHOR TUITION

₹0 discount. Full tuition: ₹2,80,000.

Corporate-sponsored candidates or applicants enrolling in late admissions windows.

SCHOLARSHIP PORTRAIT / HUMAN SUBJECT
DIRECT AND HONEST / CLEAN BACKGROUND

How Admission Works

The selection funnel is rigorous. It is designed to find builders with the right trajectory, not just the right credentials.

1

EXPLORE THE HANDBOOK

Read the Founder Briefing. Understand the curriculum, the commitment, and whether Bayes is built for where you want to go.

2

FELLOWSHIP + SCHOLARSHIP APPLICATION

A multi-stage application: Technical Trajectory audit, Ambition essays, and optional scholarship aid request. Auto-saved. Complete asynchronously.

3

FOUNDER DIAGNOSTIC INTERVIEW

A 30-to-40 minute 1-on-1 with the founder. Come ready to present a 5-minute technical breakdown of something you built or a problem you are obsessed with.

4

OFFER LETTER + AID DECISION

Successful candidates receive an official offer with scholarship grant details and net fee. A Sponsor One-Pager is included for family alignment.

5

₹5,000 SEAT CONFIRMATION + ENROLLMENT

The ₹5,000 deposit locks your seat within 48 hours of the offer. It is credited toward your first tuition installment. Your cohort journey begins.

SELECTION STANDARD

We do not evaluate by institutional pedigree, corporate title, or salary.

We select for:

Practical systems competence.

Commercial courage.

Bayesian belief updating.

Time and solvency stability.

A candidate from an unranked college with high agency will be admitted over a credential-heavy applicant who avoids customer reality.

FIND OUT.

Are you the founder this fellowship was built for?

QR CODE

bayesinstitute.com

YOUR FELLOWSHIP STARTS BEFORE WEEK 1

The moment your ₹5,000 deposit is confirmed, your journey begins. Before Cohort Day 1, you will receive a physical welcome kit, meet your cohort, and begin exploring the problem space alongside your peers.

THE WELCOME KIT

Heavyweight Bayes Hoodie

Your first tangible proof you are part of something real.

Bayes Passport

A premium identity card: your full name, cohort number, and Bayesian identifier (e.g. Bayesian #014).

Printed Manifesto Notebook

A structured notebook for the 40 weeks ahead.

Laptop Sticker Pack

Your mark. Your cohort. Your commitment, visible.

Sealed Commitment Letter

You write it to yourself. You seal it. You open it on graduation day.

BEFORE DAY 1

Fellow Spotlights

Daily highlights of your cohort members: their build stacks, obsessions, and trajectories. You will know your peers before you meet them.

Pre-Launch Coffee Meetup

Regional Saturday sessions in Mumbai and Pune, 2-3 days before Cohort Day 1. Purely for peer chemistry.

Idea Sandbox Channel

An async workspace where fellows post problems, industry pain points, and potential co-founder concepts. No oversight. Pure exploration.

FLAT LAY / PHYSICAL WELCOME KIT
HOODIE, PASSPORT, NOTEBOOK, STICKER PACK, SEALED LETTER
