PILLAR 1

LEARN BUSINESS BY DOING BUSINESS

At Tetr, we believe the best way to learn business is by doing business. Our unique, hands-on approach takes students beyond the classroom, immersing them in real-world entrepreneurial experiences across the globe. Through dynamic workshops, cultural immersions, and high-impact business projects, students gain firsthand insights into global markets, industries, and communities.

Each stop on this journey is a launchpad for ideas, ventures, and careers. Here's what's in store for you.

TERM 7
Europe

- Grow a YouTube channel to 20K and land brand deals **(BMT-UBI, BMT-ASU & Integrated Program-ASU)**
- Design a fintech solution for a real user need **(BFAI)**

- Launch a 5-SKU brand at 30% margins **(Integrated Program-ASU)**

CAPSTONE SUCCESS CLASS OF 2028

44
Business launched in the first year

300+
Students pitched to global investors

$8000+
Average revenue earned per business

In Dubai, our undergraduate students launched dropshipping businesses, mastering product sourcing, website development, digital marketing, and customer engagement to turn ideas into real operations.

Building on this success, they then ventured into building D2C brands in India, identifying untapped market opportunities, creating brands from scratch, and connecting directly with consumers using data-driven strategies. These experiences empower students to challenge traditional business models and transform bold ideas into impactful, sustainable ventures.

Top 7 Teams:

Ikara (Timeless Silverware)
Revenue: **$120,210** | Profit Margin: **17%**

Bike Arena (Custom Bikes)
Revenue: **$102,361** | Profit Margin: **22%**

TAFFLO (Electronics & Tech Accessories)
Revenue: **$18,008** | Profit Margin: **63%**

Serve Club (Sustainable Pickleball Gear)
Revenue:**$13,417** | Profit Margin: **43.2%**

Knotcultured (Premium Streetwear)
Revenue: **$11,460** | Profit Margin: **62%**

Maison & Co. (Sustainable Headwear)
Revenue: **$11,402**| Profit Margin: **28%**

Six Oppas (Korean Fusion Streetwear)
Revenue: **$10,200** | Profit Margin: **18%**

Explore our Bachelor's programs and take the next step toward becoming a future business leader.

Bachelor of Management & Technology

Bachelor of Finance & Artificial Intelligence

Bachelor of Science in Artificial Intelligence

Integrated Bachelors and Masters Program
In Management & Technology

BACHELOR OF MANAGEMENT & TECHNOLOGY

UBI BUSINESS SCHOOL

Duration: 4 Years **Eligibility:** Grade XII **Format:** Full-Time

The Bachelor of Management & Technology, is a four-year, full-time course that takes you across the globe. With base camps in India, Dubai, China, Ghana, the USA and Europe you'll gain unparalleled exposure to international business practices. The curriculum includes workshops, business immersions and cultural immersions, ensuring a comprehensive learning experience. Graduate with a Bachelor's of Science (Honours) Degree from an accredited United Kingdom university, completing the first 6 terms at Tetr College and earning the final year credits through UBI Business School.

BUILD BUSINESSES ACROSS BORDERS

Experience immersive, real-world learning each term as you build ventures, test ideas in live markets, collaborate across cultures, and solve meaningful problems in some of the world's most dynamic economies.

India:	Launch a consumer brand with 5 SKUs and $25,000 in revenue.
Dubai:	Build a global dropshipping business targeting $10,000 in revenue.
China:	Raise $20,000 via Kickstarter for a hardware product.
Ghana:	Pilot an NGO impacting 200+ lives through partnerships.
United States:	Build a tech startup in Silicon Valley.
Argentina:	Lead sustainability initiatives offsetting 1,000 kg of CO_2.
Europe:	Grow a YouTube channel to 20,000 subscribers and secure brand deals.
Internship:	Complete a full-time internship through live projects or academic pathways.

HANDS-ON LEARNING THROUGH WORKSHOPS

Tetr's **Bachelor of Management & Technology** curriculum is built around hands-on workshops designed for real-world execution. Each "How To" session focuses on practical skills, from building supply chains and launching products to running digital campaigns, ensuring students graduate with experience, not just theory.

Management & Strategy (MAST)	How to identify and forecast macro trends	How to build solutions for global problems (Large Systems Thinking)	How to build a global supply chain
Sales & Marketing (SAMA)	How to advertise without spending money	How to price your products strategically	How to run digital ads on Tiktok, Meta & Google
Finance & Fintech (FIFI)	How to invest in capital markets & build a portfolio	How to PE and VC firms work	How to read and analyze financial statements
Product & Tech (PRTC)	How to leverage machine learning to build business solutions	How to build apps using No-Code	How to build dashboards & use advanced excel
AI & ML (AIML)	How to leverage AI to automate content creation	How LLMs & AI actually work	How to use big data to drive decision making
Communication & Self Development (COMM)	How to use mental models to solve problems	How to craft a compelling personal portfolio	How to influence people without authority

BACHELOR OF FINANCE & ARTIFICIAL INTELLIGENCE

UBI BUSINESS SCHOOL

Duration: 4 Years **Eligibility:** Grade XII **Format:** Full-Time

The Bachelor's in Finance and Artificial Intelligence is a four-year, full-time programme built at the intersection of financial markets, data, and emerging technologies. Students study across multiple global locations, gaining hands-on exposure to finance, analytics, and AI-driven decision-making. The curriculum blends academic rigor with live market simulations, industry projects, and global immersions, preparing graduates for careers in finance, fintech, and technology-led business roles.

GLOBAL MARKETS IN MOTION

Build at the intersection of capital and code, managing live portfolios, operating real ventures, creating fintech solutions, and deploying AI-driven strategies across global markets.

India:	Acquire and operate a real business through a student holding company.
Dubai:	Run a student-led investment house managing live portfolios.
China:	Trade global markets in a live simulation-driven markets lab.
Ghana:	Build and launch a fintech product for emerging markets.
United States:	Manage client portfolios under supervised fiduciary frameworks.
Argentina:	Design and test a systematic or high-frequency trading strategy.
Europe:	Pick a demographic, identify their real financial challenge, and design an innovative fintech solution tailored to their needs.
Internship:	Complete a full-time paid internship aligned with your career ambitions.

HANDS-ON LEARNING THROUGH WORKSHOPS

Tetr's **Bachelor of Finance & Artificial Intelligence** curriculum is designed around applied learning. Each semester features hands-on "How To" workshops that develop core capabilities, including financial analysis, business valuation, and AI-driven decision-making in modern markets.

Data (DATA)	How to turn financial data into predictive models using AI & statistics	How to translate market hypotheses into automated trading strategies	How to integrate climate risk and long-term value into investment decisions	How to design crypto & blockchain financial models
Economics (ECON))	How to anticipate economic cycles & position investments accordingly	How to connect theory (CAPM, EMH, arbitrage) to real market decisions	How to manage regulation, systemic risk & financial stability	How to hedge downside risk using futures, options & structured strategies
Core Finance (FIN)	How to allocate capital under uncertainty & optimize firm value	How to read financials like an investor	How to trade volatility, macro themes & non-traditional assets	How to evaluate startups, negotiate term sheets & scale investments
Investments (INVT)	How to understand liquidity, interest rates & capital flows to spot market opportunities	How to value firms, price risk & understand investor sentiment	How to manage multi-asset portfolios across global markets	How to structure deals, raise capital & execute M&A strategies

BACHELOR OF SCIENCE IN ARTIFICIAL INTELLIGENCE

ILLINOIS TECH

Duration: 4 Years **Eligibility:** Grade XII **Format:** Full-Time

This 4-year program offers an immersive experience in building diverse tech products, from SaaS and mobile apps to AI and VR, in partnership with Illinois Tech, Chicago's leading tech university, ranked the #1 Best Artificial Intelligence Degree Program in the U.S (Learn.org 2026). You'll gain a Bachelor of Science degree while traveling across 7 countries. Each term presents the opportunity to apply your learning through real-world projects and cultural immersions, helping you master technology and become a global tech leader.

AI IN ACTION ACROSS CONTINENTS

Build intelligent systems in real-world environments as you develop AI-powered products, deploy scalable technology solutions, and apply advanced computing across global innovation ecosystems.

India:	Develop a SaaS platform onboarding 10 stores with 90% weekly engagement.
Dubai:	Build an AI-powered ecommerce platform targeting $10,000 in revenue.
China:	Program an autonomous drone tested across 5+ simulations.
Ghana:	Launch an AI app increasing NGO donations by 25%.
Europe:	Create a multilingual AI content platform across 10+ languages.
Internship:	Complete a full-time paid internship in your chosen sector.
United States:	Attend Illinois Tech and complete graduate pathway coursework.

HANDS-ON LEARNING THROUGH WORKSHOPS

Tetr's **Bachelor of Science in Artificial Intelligence** curriculum is built around learning by building. Classes are structured as "How To" workshops that equip students with practical skills, from working with data to developing and deploying AI solutions that solve real-world problems.

Math (MATH)	How to train an AI to detect errors and get better	How to optimize AI models across millions of parameters	How to build simple math models that predict the real world	How do you build machines that interact with the real world
Computer Science (CS)	How do you engineer data systems for the world's messiest realities	How do you build software that never goes down	How do you map the hidden structure of human relationships on social media	How do you break any problem down until a machine can solve it
Business (BUS)	How do you make people want your product	How to understand economic forces that shape the world and the economics behind the startup ecosystem	How do you turn ideas into mass-produced hardware	How do you make sure your startup is worth a million dollars

INTEGRATED BACHELORS AND MASTERS PROGRAM IN MANAGEMENT & TECHNOLOGY

THUNDERBIRD SCHOOL OF GLOBAL MANAGEMENT

ASU Arizona State University

Duration: 4 Years **Eligibility:** Grade XII **Format:** Full-Time

The Integrated Bachelor's and Master's Programme with Thunderbird School of Global Management at ASU is a four-year, full-time course designed for students seeking accelerated global exposure in management and technology. The undergraduate degree is awarded by Tetr College, followed by a postgraduate degree from Arizona State University's Thunderbird School of Global Management. The programme combines academic coursework, global immersions, and applied projects across international locations, preparing students with advanced business, leadership, and technology capabilities for global careers.

AN ACCELERATED GLOBAL JOURNEY

Build real ventures in international markets as you launch brands, test ideas, and apply management frameworks in diverse economic environments.

India:	Launch a consumer brand with 5 SKUs and 30% margins.
Dubai:	Build a global dropshipping business targeting $10,000 revenue.
China:	Launch a hardware product raising $20,000 from 100 backers.
Ghana:	Pilot an NGO impacting 200+ lives.
Europe:	Grow a YouTube channel to 20,000 subscribers and secure brand deals.
Internship:	Complete a full-time internship with live project exposure.
United States:	Complete coursework at Thunderbird's Global Headquarters at ASU.

HANDS-ON LEARNING THROUGH WORKSHOPS

An accelerated global program delivered in collaboration with Thunderbird School of Global Management at Arizona State University.

Students complete their undergraduate degree with Tetr, followed by a postgraduate degree from Thunderbird at ASU.

The program combines academic coursework, global immersions, and applied projects across international locations, preparing graduates for advanced leadership and technology-driven careers.

Management & Strategy (MAST)	How to analyze markets & identify new business opportunities	How to build a sustainability first culture in your company	How to never lose a customer
Sales & Marketing (SAMA)	How to position your brand using consumer psychology & behavior	How to use marketing analytics to optimize conversion	How to decode social media algorithms
Finance & Fintech (FIFI)	How to allocate budgets & control costs	How to leverage DeFi & Crypto in business	How to manage risk and optimize returns
Product & Tech (PRTC)	How to use product analytics for deeper insights	How to leverage gamification & behavioral design to build successful products	How to build habit forming products
AI & ML (AIML)	How to master prompt engineering to leverage generative AI	How to deploy AI in agritech	How to build AI powered products
Communication & Self Development (COMM)	How to become a better leader	How to write emails that get responses	How to be productive & get things done

YOUNG LEADERS FORUM

The Young Leaders Forum (YLF) empowers youth under 25 to drive transformational change in cultural understanding, entrepreneurship, environmental stewardship, and social equity. Through workshops, cultural exchanges, and hands-on experiences, YLF inspires young leaders to create a future defined by inclusion, innovation, and purpose.

YLF has grown into a global movement with vibrant hubs in India, Dubai, Nepal, Vietnam, and London, each adapting the program to its unique cultural and educational landscape.

YLF LONDON

In London, students engaged with renowned content creators and explored historic Oxford University, blending tradition with modern innovation.

YLF MEXICO

The Tetr Tribe brought the spirit of Tetr to Mexico, meeting with future students through engaging sessions and giving them a taste of the bold, global journey ahead.

YLF DUBAI

In Dubai, the Tetr Tribe stepped up as mentors. They guided high school students from various schools on preparing business ideas and pitching solutions to real-world problems.

Songheon Kang | South Korea
Dock Mennonite Academy
Founder - AI voice recognition startup

I feel very honoured to be a part of the Tetr Tribe and I know they got a whole bunch of applicants and they had to pick a few students to be a part of their first cohort and I am very very grateful for this. For me, the most exciting thing is to find a lot of like-minded people who are so different.

Jeet Totla | India
Co-founder Serve Club: Pickleball Lifestyle Brand Investment Analyst Intern, Annex Investments Abu Dhabi

The journey so far has been limitless—from co-founding Serve Club, a premium pickleball lifestyle brand, to becoming one of the youngest Investment Analyst Interns at Annex and helping shape The Residency at Arrayah in Dubai. Through global immersions from GITEX to EMAAR, I've engaged with visionary CXOs, bridging entrepreneurship, finance, and innovation.

Juan Ignacio | Argentina
Colegio San Patricio Rosario
Runs a youth sports academy

I'm grateful to be part of Tetr College of Business, where I'm learning to turn my passion into purpose. The innovative curriculum, global perspective and guidance from experienced mentors will help me grow both personally and professionally.

Weronika | Poland
Leweston School | Blackrock intern

I've always felt that traditional education lacked something essential and wasn't working for me. I decided to enrol in Tetr after conducting thorough research and haven't regretted my decision ever since. I am excited to explore my potential throughout this journey and discover which industry and location in the world I am most passionate about impacting.

Toumi Ayai | Japan
Austin Community College
Founder of a women's empowerment organisation

Joining Tetr has truly changed my life. Growing up in a small town in Japan, I never imagined I'd travel the world and gain such valuable insights. The hands-on projects and inspiring mentors have boosted my confidence, and Tetr's focus on sustainability is helping me work toward my dream of creating an eco-friendly cosmetics brand.

Sree Renga | Oman
Indian School Bousher
Gold Medalist - Queen's Commonwealth Essay

While building a business, you do not simply learn finance, sales, and marketing. operations, logistics, you also need to learn resilience, discipline, and determination. Tetr has understood this very well when creating their curriculum and pedagogy: the education renaissance that will be created as a result is something that will be marked in the history of teaching.

LIFE AT TETR: BEYOND THE ORDINARY
